Why to choose GSG talents?

- **Exceptional Technical Expertise:** Palestinian engineers have a high level of technical proficiency and expertise
- **Cost-Effectiveness:** Our partners can access top-quality engineers while optimizing their budget and resources
- **Low Churn Rate and Talent Retention:** GSG's talent stay with their employers for the long run. Our talent team will replace talent within a few months if they leave
- **Language Proficiency:** our talent possess strong English language and communication skills

Our Partners:

At GSG, we have an extensive global network of hiring partners, and we are thrilled to work alongside some incredible organizations, including:

What our partners says:

“Working with tens of recruitment agencies, I can say that **Gaza Sky Geeks are honest, upfront, have a social value, and are driven by genuine passion.**

I felt supported. **The talent matching team was ready to listen, recommend, engage, and support us to find the right candidate.** Our experience with them was simply painless, easy, and friendly.

I advise companies to consider Gaza Sky Geeks if they are looking for tech talent. Also, take into consideration time differences and cultural differences when adding a new member to the team.”

What our partners says:

Google for Startups

Google for Startups (GFS) partnered with GSG in 2019, enabling GFS's network of startups to tap into the expertise of highly skilled tech talent from Palestine.

Jason talking about the interns efforts: “They were **diligent and professional**. The level of commitment and dedication to the project was constantly mind-blowing.”

Jason reflected, “Seeing Next Up Comedy’s future plans brought to life through professional and well-executed efforts was truly the best fulfillment for us.”

~ Jason Wolfe, Web and Data Manager at Next Up Comedy

Meet our partners and talents

“

“In fact, Gaza Sky Geeks solved the problem for us, **we had an issue recruiting professionals** that were trained in our technology stack, which uses the **latest software languages and latest technologies** available right now, and it was really hard to find them in Gaza until we introduced to Gaza Sky Geeks.”

~ Khaled Sabawi, founder and CEO of Open Screenplay
